

## Call for Art

# FUR & FEATHERS OF WWI ART EXHIBIT

A multi-venue exhibit honoring the animals that served 2017 is the 100 year anniversary of the U.S. entering WWI

Animals were a crucial part of the war effort. Horses, donkeys, mules and camels carried food, water, ammunition and medical supplies to soldiers at the front. Dogs and cats were trained to hunt rats in the trenches. Dogs were used for a wide range of missions. Pigeons carried messages and canaries were used to detect poisonous gas. Animals were not only used for work. Dogs, cats, and more unusual animals including monkeys, bears and lions, were kept as pets and mascots to raise morale and provide comfort amidst the hardships of war.

### Purpose

*To create awareness and understanding of the value and benefit of animals to humans.*

*To raise funds to help animal welfare organizations*

*To promote education, through art and art through altruistic projects*
